On 18th of January, Mrs. Ikram al-Sharif a specialist working on “family defense association” in the cooperation with HSA staff, has conducted a workshop entitled "Violence against women", which dedicated to the women who are a part of in the illiteracy program, she presented the modern concept of violence in general, and also discussed the causes of violence in the family and society and its forms. The method of the workshop was taken by dividing the participants into small groups, which enabled them to highlight the consequences of violence in the family and society, and how to confront it and reduce its spread.

On 25th and 27th of January, Ahmed al-Arboudi, one of the staff of the association, who holds a bachelor's degree in Applied Chemistry, gave two workshops on health and the environment. Where the first workshop named "health of women and children" and other one “the good food” The participants were women attending the illiteracy classes, as they were aiming to raise the participant’s awareness of some aspects of the health practices of children and women.
