BACK to SCHOOL

School Support Project 2021

School support project is one of the important educational project that HSA provide it for the children aged 7-10 years old since 2010, the children's come after their schools at 2:00pm.

We started implement the project at the beginning of February for the second semester 2021, we targeted just 30 children because of the emergency situation in Nablus city. Of course we took all the preventive and health measures during the implementation.

The teachers started teach them Arabic, Math and English in a non- academic way, and they provide lessons through easy educational tools for students such as: paintings, drawings, shapes and letters.

Workshop for children “ Group games ”

HSA held activities “group games”, for the children aged 7-10 years old in its center, This activity teaches the children how to work as a team, express their feeling and spent a good time in their holiday.

During this activity the children played their favorite games together and did some of the Competitions between them.

We implemented this activity in a safe way and took all the preventive and health measures.

HSA continuing to implement Dabkeh dance trainings for children aged 10-13 years old in its center, and we take all the preventive and health measures to hold it in a safe way.

The dabkeh team are very proud of their performance, and they like to learn more and more about the dabkeh, Now, they can create new shows with their “trainer Tala”. The dance lesson aim is to teach the children how to work in group, develop their talent, get new skills, proud of their work and Take responsibility.

Administrative and office works of HSA

During February, HSA continued its administrative and office work and implemented some of the educational and entertainment activities for children aged 7-13 years old in its center such as: school support project 2021, Dabkeh dance trainings, group games”, and we took all the preventive and health measures during implement it, and we participated in some of online workshops with local organizations about "Developing the performance of workers at their work", also we planned and prepared new activities to implement it next months.
