Human Supporters Association

JANUARY 2014 NEWSLETTER

Human supporters association has welcomed the new year of 2014 with motivation and determination, and finished the year of 2013 with great successful and amazing memories, this success has been seen on the faces of kids; happiness, smiles of youth and the trust of parents in Human Supporters Association, and everybody showed us how much participating in any activity in HAS has left a remarkable effect on them and on their lives.

We are in Human supporters Association will never forget all those who believe in our call, stand beside us and support us from the beginning, we are speechless, and running out of words for those who support us, especially the French institution Avec Naplouse we say thank you so much for their nonstop support in the last years till this year 2014.

So we thank you again, and we will keep up the good work for the country.

You'r Right 2.0 .. The Way To Nablus Project

15 Italian artists arrived to HAS, after 15 Palestinian participants went to Qlandia, checkpoints to meet their friends to take them to Nablus, to start You'r right the way to Nablus, which is the 2nd part of you'r right project which took a place in Italy in 2012 and the Palestinian went to Italy.

This program lasted 2 weeks, and it included rehearsals, trainings for the theatre performance, building puppets for the street show, study and field visits were included in this program. For cities that always effected by occupation, such as Hebron, Tulkarm Nablus and some other villages like agaba near Tobas, we met many people in these cities and told us about their experience, those stories were inspired by street show, especially when the participants walked through AL-Shuhada street.

A French delegation from Cemea visiting HSA

HSA Welcomed French delegation consisted of 15 people from the French institution CEMEA , where the staff of HSA briefed to the delegation about the work of the Association, and also a group of volunteers and staff in HSA talked about their experience with the Association , and how it has a great credit in the talents of volunteers and staff , and how the Association is interested in small details before the big of each participant, away from the scientific level or experience.

Also we talked to the delegation about the political situation , and the conflict in Palestine , and showed them some documentaries about the situation in Palestine.

HSA also organized a tour in the old city in Nablus and the old city of Nablus , which included - historical sites and some sites that was effected by the occupation and the Israeli invasion.

Winter Camp (I'm With You)

The winter camp which took a place in the headquarter of Human Supporters Association ,was finished on 29\Jan\2014, which began a week ago, where benefited from this project were 30 children, and in collaboration of 10 volunteers from HSA .

Many activities have been implemented during the whole week, these activities included environment and recycling , art, and Dabke.

And the final day was the distribution of certificates to the participants and volunteers.

The character of January

Mohammad Samara , 29 years old , is a nurse in a hospital in Nablus , and he is devoting his free time in volunteering in Human Supporters Association .

Samara talked about his experience in Human Supporters Association and said :

“ I've been a volunteer in HSA since 2008 , and since then I've been engaged in the activities , and found many opportunities to do what I want to do to help the people like teaching English and translating .

And since then I've developed in my skills , and I am grateful for Human Supporters Association , for believing in my qualifications , and for trusting me .

And this developing in my skills was obvious when HSA started to give me more tasks like activities coordination, welcoming the delegation and organizing their visits .and then I got the chance to be an English teacher in school support university.

Even if there was no job in HSA , I will be more than happy to give my time and knowledge , because the successful of the association is what I am looking for , and seeing the kids smiling and happy is better than any money , it is the best reward .

And I advice each one to volunteer in the association , because it is not offices and people , it is a place where you find a family who believes in you.”

School Support Program

HSA used to target a group of 60 kids each year in the School Support program twice a year , and they take classes in English , Arabic and Maths , 3 days a week for 2nd , 3rd and 4th grade , with non formal education methodology.

According to the successful of the project, and because the family keep asking for more classes for their kids , because their kids have been improved.

And because of that , Human Supporters Association decided to double the number of kids , So the beginning of February we launched the program and targeted 130 students from 2nd , 3rd , th and 5th grade , and 6 teachers will teach them English , Arabic and Math.
